All the Communists are Greenbackers—that is, they believe in the Government issuing irredeemable paper. Not one of them can be found in the ranks of the army of sound currency men. This may seem strange, but it is nevertheless true.

The first bale of the new crop of Mississippi cotton sent North, was sold in New York on Tuesday for the benefit of yellow fever sufferers. The amount realized from the one bale was \$342. The Chamber of Commerce, New York, raised \$6,648 for the sufferers, on Tuesday.

Dennis Butler Kearney has run his course. As a representative of the working class he is a fraud. He urges everybody else to work, but won't set an example. The workmen who have flocked by the thousands to hear him are beginning to learn that he is a beggar.

Cary, the champion rag man, is drawing \$200 a week from the pockets of deluded workmen for his speeches in advocating the unlimited issue of worthless paper money. It is a good investment for Cary, as he could not make that much in any other business, but a mighty poor one for the workmen.

Milwaukee is improving the few remaining days of grace. A son of Congressman Lynde has gone into bankruptcy, his liabilities being \$13,000, of which amount he owes \$10,000 to his father. Albert Friend, of that city, has also filed his petition in bankruptcy, his liabilities being estimated at \$6,000.

The St. Paul Pioneer-Press, an independent newspaper, makes this truthful statement: Thousands of Democrats will quietly vote for Republican Congressmen this fall, and they will do so because, whatever else they may think of the Republican party, they know it can be trusted to pursue a safe and conservative financial restoration of the industrial and commercial prosperity of the country.

The improvement in the dry goods trade in New York, is quite marked. The Herald says that in spite of the temporary cessation of orders from certain Southern points, dealers report trade more brisk than ever before at this season of the year. The surplus stock which embarrassed the market for several years after the panic has been consumed, and manufacturers are guarding carefully against over production.

In his Greenback speech the other day, Thurman had the audacity to say: "I think I do no injustice when I say that the leaders of the Republican party are in favor of directly the opposite course." That is to say, they would retire all the greenbacks in order that their places might be filled with national bank notes.

Senator Thurman is mistaken. He knows well enough that the Republican party is not, and never was, in favor of retiring the Greenbacks and putting in their place national bank notes. Thurman was playing the part of a demagogue when he made his Hamilton speech.

The Democratic stump speakers are having a good deal to say about the Electoral Commission fraud. The Democrats should not forget so soon that it was a scheme of their own hatching, and that it was passed against strong Republican opposition. There is another thing which the Tilden Democrats should not forget. Hon. C. B. Walker, of New York, who was a member of Congress in 1876 and '77, says he voted for the Electoral bill at the urgent request of Hewitt, Pelton (Tilden's nephew) and other friends of Tilden, although he was opposed to it himself.

A dispatch from Salt Lake says that a Mormon with two wives took them before the District Court of that city, and asked for the naturalization papers for the second wife. When asked if she was living in polygamy, she answered in the affirmative, whereupon the district attorney objected to her naturalization on the ground that she was not of good moral character. The Evening News, the Mormon church organ, advises polygamous wives hereafter, in any matter in which the law of the land is concerned, to call themselves by their maiden names, and in a court to take the position of unmarried women.

Governor Wade Hampton is bound to follow Senator Patterson, of South Carolina, to the bitter end, and either compel him to resign his seat in the Senate before the session begins in December, or secure his extradition after Congress adjourns next March, and then take him to South Carolina for trial on the charge of robbing the State. It is doubtful if Hampton can make his game win. Patterson can not be arrested while Congress is in session, and

THE PLAGUE.

One Hundred and Eighteen New Cases at Vicksburg. The Disease Steadily on the Increase.

Port Gibson, Miss., Aug. 27.—Two hundred and twenty cases of yellow fever up to date, and twenty-five deaths.

NEW ORLEANS, La., Aug. 27.—New cases, 191; deaths, 49. The death list today includes eight children under seven years.

Collector Smith has been authorized by the Treasury Department to purchase 100 gallons of carbolic acid to disinfect the Custom House.

MEMPHIS, Tenn., Aug. 27.—To-day has been the worst thus far of the prevalence of the fever. The deaths aggregate 32 and the new cases 96.

Of the new cases occurring now a large proportion are colored people, among whom the mortality will doubtless be very great.

Vicksburg, Miss., Aug. 27.—Heavy showers last night and this morning. One hundred and eighteen new cases of yellow fever in the past twenty-four hours, and twenty-four deaths, among them Dr. Booth. The Howard Association of Vicksburg wish to know Representative Chamberlain's address. Dr. Harris and Mrs. Graham arrived from Galveston to-day.

NEW YORK, Aug. 27.—A Grenada, Miss., special says: The situation yesterday was more encouraging. Eleven whites and four negroes died during the last twenty-four hours. The fever has each day taken hold of fresh victims, while almost hourly some poor sufferers find relief in death. The negroes who were quarantined on the outskirts of the town at first escaped, but the germs finally reached their habitations. Seventy-eight colored persons are prostrated. No person can describe the terror which took possession of the dusky citizens when yellow jack appeared in their ranks. Many fled, leaving their sick and dying friends without help, provisions or even water to drink.

WASHINGTON, D. C., Aug. 27.—At the Cabinet meeting to-day, the yellow fever was the principal topic discussed. Urgent appeals from Vicksburg for aid were read, and the Secretary of War was again authorized to do whatever he could to relieve the suffering and distress. Additional troops and tents will be forwarded, but army surgeons will not be detailed to visit the infected districts, as most of them being unaccustomed could be of no use, besides there is no authority for sending them.

GENERAL GRANT.

An Explanation from Consul General Badeau.

NEW YORK, Aug. 27.—The Herald received the following from London to-night: LONDON, Aug. 27.—May I request you to state in the columns of your journal to-morrow that, with the exception of the letter which appeared over my signature in the Herald, on the 29th of May last, I have not written one line about General Grant, for publication since his arrival in Europe.

At the Soldiers' Home. A Reception at the Plankinton House, Milwaukee.

MILWAUKEE, Wis., Aug. 27.—Postmaster-General Key and the party accompanying him arrived at the Soldiers' Home, a short distance west of this city, at noon to-day. General Hinks, Governor of the Home, entertained the party at lunch, after which they rode in carriages to the city and held a reception at the Plankinton House. After the reception the excursion party partook of dinner, and at 6 o'clock p. m. took the train for Chicago.

The Wyoming Train Robbers Murder Their Passengers.

CHEYENNE, Wyo., Aug. 27.—The removal of spikes and fish plates, a week ago, from a rail two miles east of Medicine Bow, near a deep ravine, gave rise to the suspicion that it had been done with a view to wreck and rob a train. Deputy Sheriff Widdowfield and another named Vincent started on what was believed to be a trail of the would-be robbers, and not returning, a large party started in search of them last Sunday. One of the party has returned, and states that the bodies of Widdowfield and Vincent were found in a narrow canon of the Elk mountain, where they probably met the gang of

General Ben Harrison, of Indiana, uttered
no more important truth in his late
Richmond speech than when he said: "The
financial question is unfortunately still in
the arena of politics. It will be a happy
day for the country when we can be sure
of one full year unweaved by financial tink-
ering."

As every one knows, since 1873 the coun-
try has been writhing in the anæsthetic folds
of a protracted, and, in some respects, un-
exampled, financial depression. At first
there were some good reasons for the exis-
tence of such an unhealthy and abnormal
commercial and industrial stagnation. It
was but the natural and inevitable reaction
from a prolonged period of national infla-
tion and extravagance. During the war
and immediately after, the people of this
country discounted ten years of the future,
lavishing their money in foolish and reck-
less enterprises and wasteful living, and
when in 1873 the discounted future began
to ask the payment of its loans, there was
nothing on hand with which to meet the
just and legitimate demand. But money
must be had in some way, and in the forced
attempts to "realize" values of all kinds
went down, stocks depreciated, capitalists
became frightened and withdrew from all
contemplated ventures and outlays, and, as
a consequence, thousands were bankrupted
and thousands more were thrown out of
employment.

But why, in the name of common sense,
don't we reach the end of this downward
movement? Isn't five years long enough
to find out what is the matter, and what
the proper remedy? Can any further
light be thrown upon the causes and con-
ditions of this long period of "hard times"?
Why, then, don't the times grow better?
There can certainly be no further depre-
ciation of values; surplus stocks of goods
on hand have been disposed of; an en-
forced economy in the style of living has
been generally adopted; the harvests of
the country are bountiful beyond measure,
and still the stagnation in considerable de-
gree continues. Again, therefore, we ask,
Why don't we see the end of this long-
continued depression, and the speedy re-
turn of more prosperous days?

There is but one answer to make to all
these and similar queries, and that is in-
dicated in the two sentences we have
quoted from General Harrison's speech.
The great curse of the hour is protracted
financial tinkering, or the continual agita-
tion of the currency question. The green-
backers and anti-resumption men resem-
ble a lot of penniless spendthrifts standing
before a generous benefactor who offers
them relief, and quarreling with him and
with each other about the form in which
the benefactor shall come. What the coun-
try now needs more than anything else is
the entire elimination of financial
questions from the political arena,
and a total cessation of
this destructive financial dis-
cussion. If a period of truce for a single
year could be maintained, until capital
would issue from its present cramped
quarters, would walk abroad seeking invest-
ments, business would instantly feel the quick-
ening thrill, labor would again be in demand
and the whole country would move along
once more in its legitimate paths of pro-
gress and prosperity. As it is, capital is
afraid to venture out on account of the in-
cessant howling and din of conflicting fi-
nancial men and finance parties. Just as
soon as the tender blade of commercial
confidence appears above the surface of
things, this fell spirit of financial agitation,
like some huge denuded savage, stands
ready with scalping knife in hand, to utter
a war-whoop, spring to its side and ruth-
lessly cut it off in demoniacal glee.

Nothing can be surer than that our pre-
sent national financial system, if it could be let
alone, would bring the country out of its
chronic condition of distrust and fear,
would put out all currency on a solid coin ba-
sis, would enlarge its actual volume, instead

of diminishing it, would restore confidence
among the capitalists, would loosen tightly-
drawn purse-strings, and inaugurate at
once an incipient state of general prosper-
ity, which time would only develop and
strengthen. We wonder if there is any
voice under heaven that is loud and strong
enough to call off these infatuated financial
tinkers from the murderous work in which
they have been so long engaged?

—Those who delight to roll scandal as a sweet morsel under their tongues now have their mouths full.
—Rev. Mr. Chapell has returned to the city, and will occupy the Baptist pulpit on and after Sunday next. He expects his family next week.

—Two strangers were viewed with suspicion as they were prowling around to-day. As they could not give a very clear account of themselves they were locked up for further investigation.

—At a small tea party at the residence of Mr. and Mrs. S. D. Conant last evening, an interesting letter was read from Mrs. Griswold, giving a vivid account of her journey through Europe.

—Fifteen more names were added last night to the list of charter members of the Ancient Order of United Workmen, making a total of forty-five. They are Workmen that need not be ashamed.

—The books of the Horticultural Society are now open for entries at Heimstreet's drug store. The premiums for fruit and flowers amount to \$150 each, a fact which ladies should also take note of.

—John Welch was to-day fined \$1 and costs by Justice Prichard, for an assault on Lewis Law, to which he pleaded guilty. With the costs the tax amounted to over \$7, and he concluded to board it out at Colley's.

—Mr. George E. Sydney, the manager of the Jennie Hight troupe has arrived at the Myers house with his wife, professionally known as Miss Laura Craig, who should be remembered as supporting Rose Wood last season. Mr. Sydney has visited Janesville from time to time for twelve years, and is now made doubly welcome, having stepped into the matrimonial noose since his visit here last season.

—Captain William L. Scott, son of Mr. Stephen Scott, of Emerald Grove, was in the city to-day. Captain Scott was the commander of Company F, 331 Wisconsin Infantry, and was one of the gallant ones which did good service during the war, always ready for duty, and feared no danger. He now resides in Alabama, where he settled immediately after the war. He is extensively engaged in the foundry business.

—Rev. Jenk L. Jones has arrived home again after a two months' absence in the East. In the Chicago Times account of the Unitarian Conference lately held in Milwaukee, Mr. Jones is represented as having vacated the pastorate of All Souls' church in this city, and having engaged in Boston. His friends and admirers will be gratified to learn that this report is all a mistake, and that he will continue his work in Janesville with accustomed energy. The Times reporter was misled into making the false statement by some facetious remarks which were made in the convention, and which were understood by all interested to be purely of a jocular nature, but which said reporter in common with some others, seemed to fail to see in the right light. Next Sunday Mr. Jones will preach at Robert Collier's church in Chicago, and the Sunday following he will open the church here, and continue to labor as heretofore. Mr. Jones expresses himself highly gratified with his Eastern trip, but says his interests are identified with the West, and will thus continue and that he has no idea of forsaking Janesville.

—The Chicagoes were again defeated by the Boston who scored 7 to the Chicagoes 3.

—The thermometer at 7 o'clock this morning stood at 65 degrees above and at 2 o'clock at 75 degrees above. One year ago to-day at corresponding hours the thermometer stood at 61 and 79 degrees above.
—The indications are today, for the upper lake region and upper Mississippi valley, colder, partly cloudy weather, with occasional rains, variable winds, mostly northwesterly, higher pressure.

A WORTHY CAUSE.

HYMENEAAL.

DAKE-WIGGINS.

The marriage of Miss Addie A. Wiggins to Dr. Wm. C. Dake, was a pleasant event which took place at noon to-day, at the residence of the bride's father, in this city. The matrimonial service was conducted by Rev. T. L. Chapell, pastor of the Baptist church, and was of the most impressive character. The rooms were filled with the immediate friends of the most interested parties and were decorated in the most elaborate manner with vines and flowers. The bride was tastefully and becomingly attired, and the presents formed a large and beautiful collection. Dr. Dake is a prominent physician of Nashville, Tenn., and is a gentleman of high character and standing. The happy couple left this afternoon for Chicago, from which point they go by water to Buffalo. They will visit Niagara Falls, Boston, New York, Washington, Richmond and other eastern and southern cities, and expect to reach Nashville shortly after the first of October. The best wishes of numerous friends accompany Dr. and Mrs. Dake.

JENNIE HIGHT IN FAIR WEEK.

We are pleased to announce that Mr. C. E. Mosley has secured for his Fair week attraction, the famous comedienne, Miss Jennie Hight, who, supported by a powerful company, will appear at Myers' Opera House, on Tuesday, Wednesday, Thursday, Friday, and Saturday evenings, September 3, 4, 5, 6 and 7. Miss Hight has for years been known as one of the most brilliant and versatile actresses in America, and this season, added by a repertoire of entirely new plays, promises to be her most successful venture. With a view to this adequate representation of her comedies, Miss Hight has surrounded herself with a company of unusual excellence. Prominent among the number we note W. H. Southard, undoubtedly one of the finest of America's leading actors. Mr. Southard has just completed a fine engagement with Signor, and Madame Majoral, the famous Italian artists, Mr. E. Murray, Esq., late of the 5th Avenue Theatre, New York, Combination; Alfred Johnson, last season leading comedian at McVicker's Theatre, Chicago, and one of our leading young actors; Miss Emma Goodrich, the well known society amateur of Chicago; Mr. H. N. Wilson, who last year ably supported Miss Rose Wood, and who will be welcomed back by many friends, and admirers; Miss

Molcomb, an old Janesville favorite, and others of equal celebrity.

On Tuesday we are promised for the first time here. Frank G. Gerrys' artistic adaptation from the German, "The Woodland Willflower," formerly the property of the great comedienne, Johanna Clausen.

Wednesday night, Wybert Reeves' pretty and sparkling comedy "Won at Last." Thursday Miss Hight, piece-de-resistance, "La Cigale," the Grasshopper. This is from the French of Z. M. M. Meilhe, and Halery, well known as the author of "Frou-Frou," and other powerful dramatic efforts.

Miss Hight obtained for \$1,000 the autographic permission of the authors, to adapt the play, to the English; and this arduous task was undertaken, and brilliantly executed by James B. Ransom Esq., well known in newspaper circles, from his lengthened connection with the Chicago Times. So great was the success of this comedy in London and Paris, that it has been obtained by no less than five leading actresses, including Jennie Hight, Lotta, Maggie Mitchell, "La Cigale" like diplomacy, is destined to be one of the successes of the season.

Reserved seats, have been wisely placed by Business Manager Sydney at 75 cents. The sale will commence on Friday morning at 9 o'clock.

CROWDS ON THE STREETS.

Gazing at the Street Parade of the Great London Show—A Dazzling Display of Pageantry.

The morning opened threateningly, and the cloudy skies caused many to keep within doors and on the farms, who otherwise would doubtless have climbed into their wagons and rolled into the city, to witness the widely heralded coming of How's Great London Show. The streets along the line of march were nevertheless crowded, and in some places packed beyond comfort. Peddlars and vendors of all kinds of edibles and knick-knacks were swarming in unusual numbers. Against every convenient window pane were flattened noses and anxiously peering eyes of little folks, and folks who were not so little. The sidewalks were crowded, and at places, any one desiring to pursue the even tenor of his way, was prevented from doing so, except when some persistent woman with wide-spread parasol would make a break through the crowd. The curiosity of the sight-seers was only whetted, and a keener edge given it by the parade, which was by far the best which has yet appeared on the streets of this city. It was showy, there being a profusion of banners, gay colors, tinsel and gilt, and yet there was more than this, the make-up of the parade being a fine one, there being a great variety of horses, chariots, wagons, and animals. Great interest was taken in the "Tally-ho" stage, which was fully up to the representations on the show bills. The five mammoth elephants were conspicuous, while the many little ponies appeared in striking contrast. There were gay knights and fair ladies, a cage of hyenas howling at their keeper, who was looked in with them, emblazoned chariots, and laughable dummies, all striving to keep the interest of the crowd of watchers up to a concert pitch until the last of the parade had disappeared. The scenes under the canvas are no less attractive. The menagerie is a good one, and it is sufficient to say that Robinson and Duckrill are among the arctic attractions. All concede that they have no equal as riders. Other attractions equally great are on the bills.

ATTENTION, GUARDS!

There will be a business meeting of the Janesville Guards, to-morrow evening. Let every member be present.
J. W. ST. JOHN, President.

Manager & Avery, of New York, have issued a circular, containing the following statements:

"The demand for wool during the past month has been steady and altogether for consumption. Notwithstanding the excitement in the west manufacturers, clothiers and dealers have been buying in large quantities of fine wools desired (which selections can be obtained early in the season), have not bought beyond immediate requirements. The conservative course on the part of manufacturers, which has been generally adhered to during the past three months, has moderated the view of dealers, who, under the stimulus of a fair business during the latter part of July had hoped to establish small advances in prices. Among dealers, the feeling now is that the business this fall will pay but little, if any, profit, and while trade generally are not willing to lose a customer, they still hope by holding back their best wools to obtain better prices during the winter or spring. The favorable condition of the money market makes it easy for even small operators to carry their stocks, and to some extent to bear in mind that there still remains a considerable quantity of wool in the west which will come rapidly forward at the first indication of an advance in the eastern market, and tend to soften prices. We look for a steady demand for clothing wools during the fall, but not for a large advance. It may, variation from prices now current.

"Combings and delaine wools were rather quiet at the date of our last report, but have been in much more active demand, and values, particularly of medium combings, are somewhat higher. This is due to the fact that the trade that the better grades of special wools will be required later in the season, and that owing to the structure of the lambs, the smallness of the yield this year will fully offset the decrease in consumption. There is no doubt but that our wool industry has received a severe check, but the result will be a change from the destructive competition on a few lines of goods to a greater variety of goods, and a more general demand for all grades of wool. The large quantities of Colorado and other blanket and carpet stock have been in less active request at present prices. The large sale of blankets which took place in July had a depressing effect on the market for wool wools.

The domestic receipts during the month are: By rail, 3,295 bales; coastwise, New Orleans, 2,991 bales; Galveston, 1,063 bales; Savannah, 253 bales; Old Dominion, 85 bales; St. Louis, 17 bales; Charleston, 5 bales; Georgetown, 5 bales; Ferdinand, 5 bales.

"The importations as reported are: Liverpool, 703 bales; London, 661 bales; San Francisco, 451 bales; Marseilles, 161 bales; Rio Grande, Du Sul, 30 bales; Montevideo, 5 bales; Caracas, four bales.

Tobacco Market.

[From the United States Tobacco Journal.]
NEW YORK, August 21, 1878.
Again we are able to report an excellent market, 3,500 cases having changed hands. Pennsylvania of the 77 crop again takes the lead, figuring with 1,825 cases, of which 500 were for export, at 10 1/2¢ cents; the others went into hands of jobbers at 10 1/2¢ and 10 cents. The last named figure was realized for a few small but fine parcels to manufacturers. A noteworthy, and to holders of 77 New England tobacco encouraging, feature of last week's transactions, was the sale of 650 cases belonging to tobacco houses in New England. Connecticut running lots have been sold, several hundred cases of Massachusetts were disposed of at 12 and 13 cents, while in Pennsylvania, at 7 and 8 cents a satisfactory figure at the present time. Connecticut second realized 11 to 12 1/2¢ cents. Ohio of 77 crop again takes the lead, being exported, but the small and poor stock still held in this city, and the high prices demanded prevented any transactions of magnitude, and only 275 cases, at 7 and 8 1/2¢ cents, were sold to exporters.
